# WHY RIVIERAPOOL?

# Design - Quality - Functionality

## DESIGN

All RivieraPool products are characterised by clear lines, clear structures, and many design details. Without disruptive technical elements, our products are always the focus and give a lot of freedom for individual integration into your planning, whether for building projects or your own private wellness oasis.

Various extensions make your pool more than just a basin full of water. An infinity channel provides a wide panoramic view, a WetLounge creates a seating and lounging

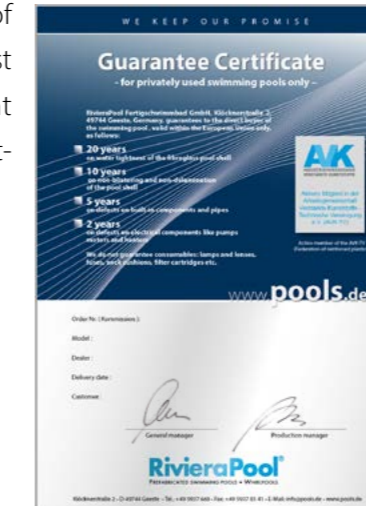

area for your outdoor furniture, unique light and colour reflections through the use of glass mosaic, everything that makes your pool the highlight of the garden ... These extensions can be used for all prefabricated pools and minipools.

Please visit our website for additional information and examples.

## QUALITY

Since 1964 we have only used the highest quality materials for our products. Through decades of experience paired with consistent quality management, we ensure that you receive a product that gives you many years of pleasure. We have the highest quality standards - we grant extensive guarantee commitments.

## FUNCTIONALITY

When you purchase an automobile, you expect the manufacturer to have taken the time to explore every aspect of safety, low operating costs, longevity and driving pleasure. After all, it is a product that has been perfected and laboured over to create a universally loved experience that everyone can agree on. This is exactly what you can expect from your RivieraPool. We have the years of experience and

organisational commitment to deliver a swimming pool that features stylish design, robust construction, superior quality, outstanding functionality, and unsurpassed beauty that will endure for decades. Manufactured in the factory, installed in your garden and ready to use in a few days.

# RENGERS GROUP OF COMPANIES

## One company, three generations

Proud to be a family-owned and operated company, RivieraPool has established itself as being one of the leading manufacturers of prefabricated swimming pools and whirlpools throughout Europe. Today, RivieraPool products can be found in private bathing gardens and indoor swimming pools throughout the world, including in hotels and on cruise ships, as well as in municipal leisure pools in hundreds of communities.

The enthusiasm for pools has been the driving force of our medium-sized family-owned company for over 50 years. Our experience and innovative strength result in comfort, stylish design and sophisticated technology. The RivieraPool® brand also stands for the aesthetics of the entire pool landscape. We provide our customers with comprehensive advice from pool planning to installation. We work closely with architects, garden planners and our local partners and ProPartners.

The Rengers Group of companies includes three companies founded in Germany and Slovakia. With a total of 200 employees, The Rengers Group of Companies include Rengers Kunststoffverarbeitung GmbH, which is responsible for all production, and RivieraPool Fertigschwimmbad GmbH, which is responsible for the sale and support of all products. The manufacturing plant in Trnava in Slovakia produces high-quality products for the markets in Western and Eastern Europe. In our innovative 1,900 square meter exhibition and showroom located in Geeste-Dalum, RivieraPool displays our cutting-edge swimming pools, sauna plunge pools, and whirlpools featuring a variety of different options, and our Europe-wide sales network of certified partners and specialist dealers guarantees superior customer service, expert advice, and on-site assembly.

## THE DESIGN • LINE – LIVING BY THE WATER ...

The calming effect of water, the empowering tranquility of a well-designed garden, the harmony that your “outdoor living room” can radiate. Water is always at the heart of such a garden. Discover the possibilities of designing your water garden with our prefabricated pools.

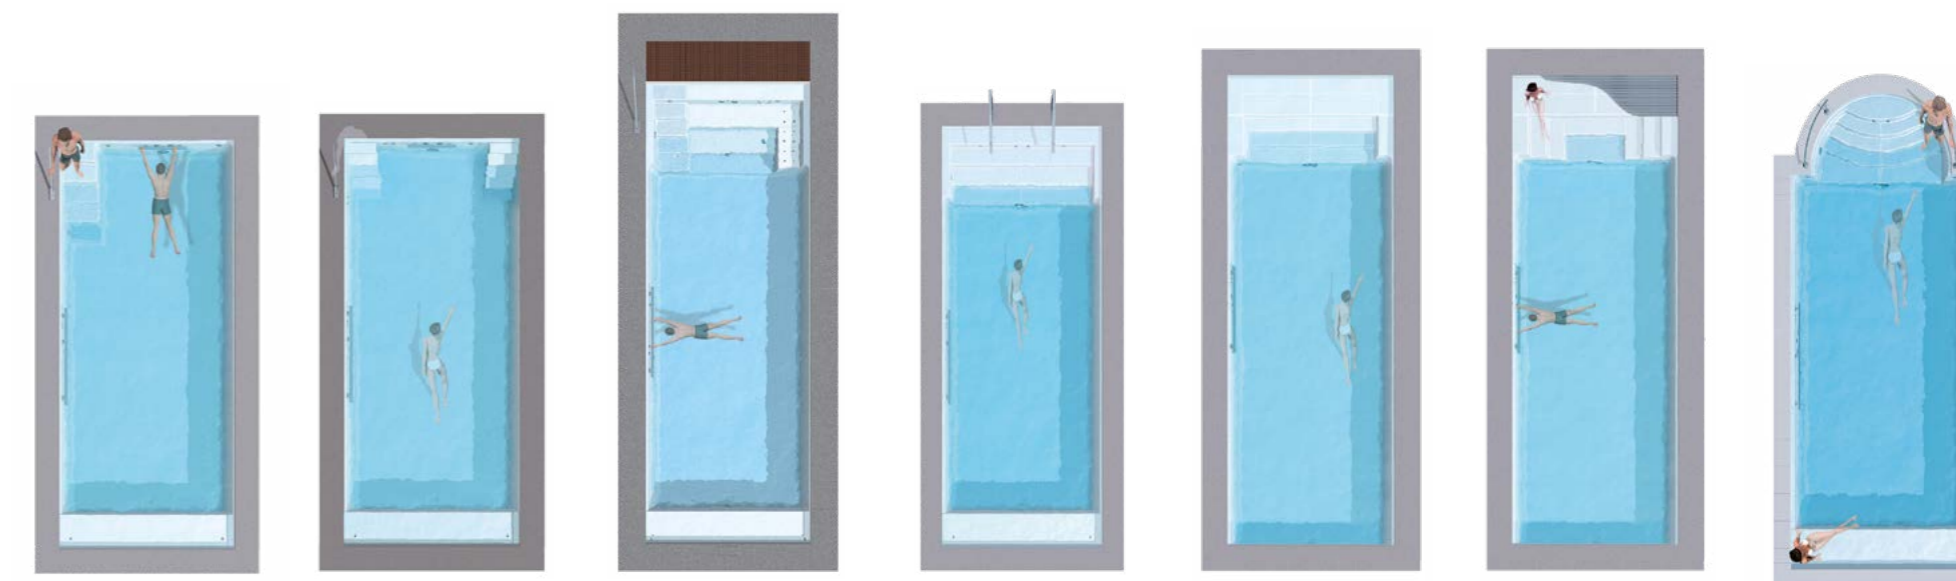

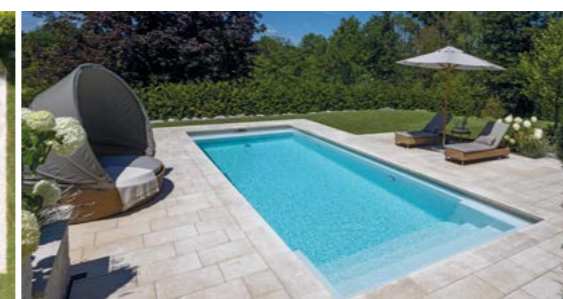

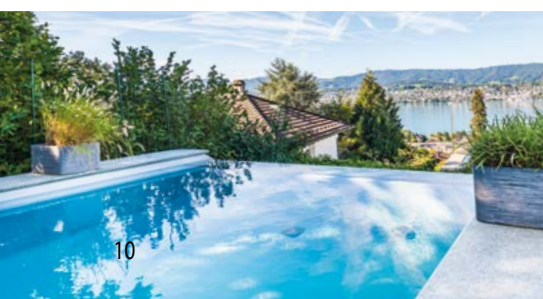

Today, people desire “water as an integral part of the garden” to preserve and revitalize both body and mind. Such a wish does not ask for a swimming pond or swimming pool. Instead, it is about

naturally staged water, stylishly embedded into your personal surroundings. When this water can also be a fully functional pool, it’s called D-Line: the prefabricated pool series from RivieraPool. D-Line is the symbiosis of ambiance and functionality. D-Line is absolutely minimalistic in appearance.

Clear lines, clear structures, and numerous chic design options for individualists. Without any disruptive technical elements, this pool always becomes the focal point of the garden, unifying all the elements.

Please visit our website for additional information and examples:

# The DESIGN - D-Line

The Design-Line has long been synonymous with straight lines, consistent design, and modern aesthetics: It offers timeless design for the finest in your wellness area or outdoor living space. The D-Line has once again undergone a transformation.

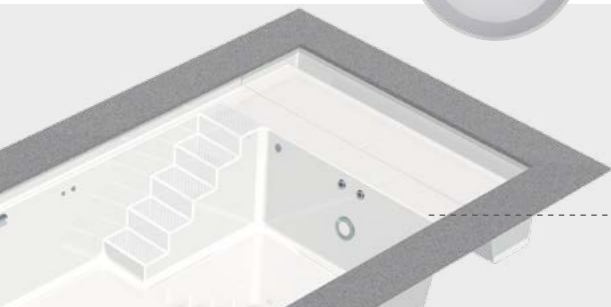

## RivieraPool LIGHTS

Introducing stylish new lights that fulfill their purpose: providing bright, inviting light that is both glare-free and elegant, creating a wonderful ambiance. The new RivieraLights offer unique design for your RivieraPool...

## WetLounge "RS" – "Roller Shutter Shaft"

The Linear RS, a classic reimagined. With the roller shutter and stairs situated on one side, there is ample space opposite for ultimate freedom: whether it is for a counter-current system or an infinity edge, the possibilities are endless. This is innovation at its finest.

## WetLounge, 2 metres more water area. A grand experience.

Ever wondered why people don't just swim on the beaches of Bali, the Seychelles, or the ABC Islands, but instead choose to enjoy life in the shallow waters? It's because of the laid-back, warm, shallow waters that simply invite you to relax... Is there any reason not to bring this experience home?

As individual as you are ...

There are numerous new opportunities to realize your unique dream pool. Nothing is as unique as you are – just like your choice for the perfect pool. The Design Line makes it possible. There are plenty of pre-fab pools available in the market. Are you seeking more than the "standard"? Then, let's discuss your new outdoor living space. Your living area, which requires more than just a waterproof container. Eventually, the time comes – Why not now?

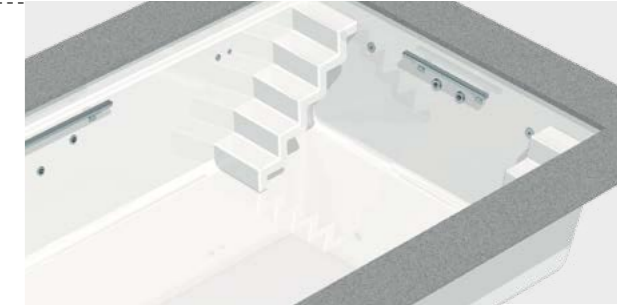

## An MLine whirlpool or a CSide minipool?

A pool that complements your pool. Slightly smaller, but warm and equipped with everything you need to contrast the refreshing swim in the pool: relaxation in warm water, hydro-massage, and wellness – all within the privacy of your garden... It's pure relaxation.

## The "BARI" steps

More than just a southern Italian port city, "BARI" represents your individual design option. Comfortable stairs placed where you desire: whether it's at the front or on the long side. Enter your pool as you please – the possibilities are endless... it's pure sophistication!

## Combine ...

... the possibilities for combination are endless. Everything fits together perfectly for your perfect, private pool – a departure from standard pool offerings: an Ancona staircase paired with Wetlounge. On the opposite side, the Linear "RS" entry steps for the whole family, complete with an integrated roller shutter.

Five steps:  
Chic and subtle

- 5 straight entry steps with an anti-slip profiled surface
- Maximum swimming length
- Minimalistic, timeless design
- Optional roller shutter systems available
- Available with factory-fitted glass mosaic finish on request (see illustration below right)

## ANCONA D-Line

LENGTH X WIDTH

- 5,50 x 2,70 m
- 6,50 x 3,20 m
- 8,00 x 3,20 m
- 10,00 x 3,20 m
- 8,00 x 3,70 m
- 10,00 x 3,70 m

Elegant design,  
high functionality

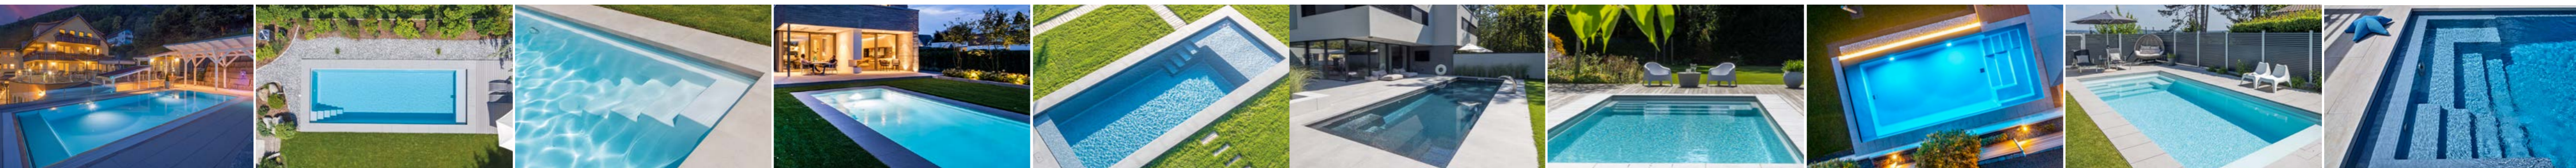

- Safe 6 entry steps with anti-slip profiled surface
- Comfortable seating and lounging areas
- Fitness-pool with optional massage and counter-current units
- Family pool
- Optional roller shutter systems available
- Available with factory-fitted glass mosaic finish on request (see illustration below left)

## MODENA D-Line

- 5 steps with anti-slip profiled surface
- Elegant and simple
- Our classic design
- Optional roller shutter systems available

### LENGTH X WIDTH

- 7,45 x 3,70 m
- 8,45 x 3,70 m
- 9,45 x 3,70 m
- 10,45 x 3,70 m
- 11,45 x 3,70 m

# The colour choice - water effect

Please visit our website or have a look in our brochures for additional information:

[www.rivierapool.com](http://www.rivierapool.com)

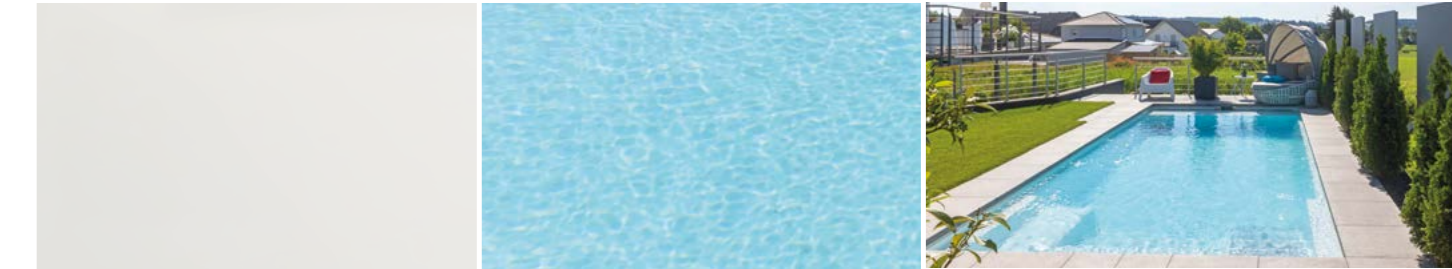

## Granicite stone grey

- Characteristic natural stone look
- Looks bright and fresh in the sun, with strong blue water

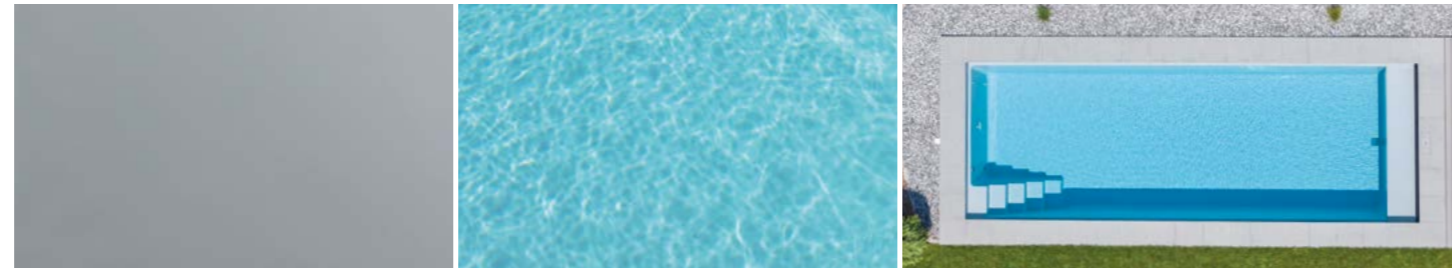

## Papyrus

- Papyrus makes the water appear pale blue – appears bright and fresh in the sun
- Especially easy to maintain and timeless

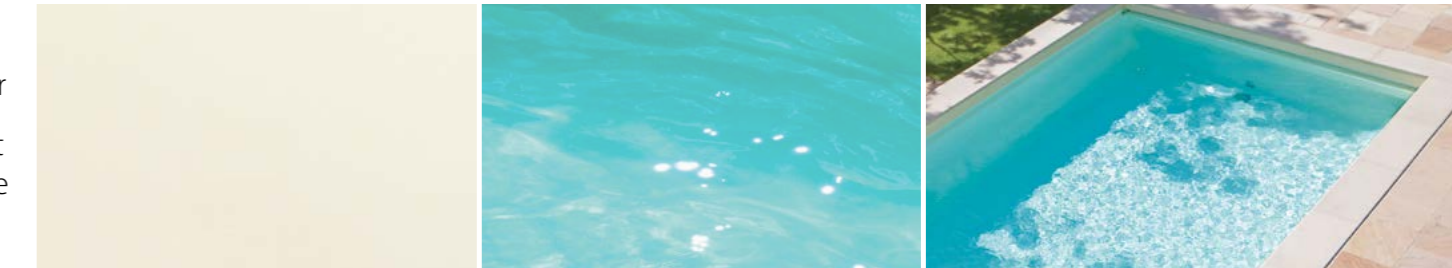

## Silver-grey

- Modern and yet timeless
- The water radiates a strong blue colour and gives depth
- Especially easy to maintain

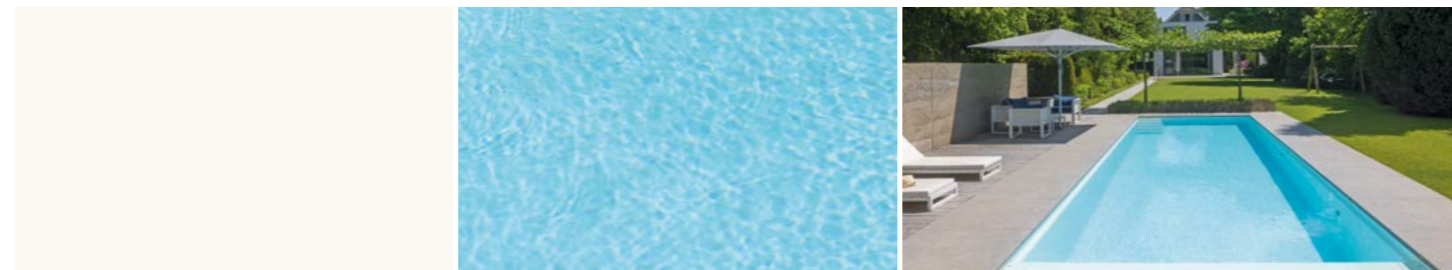

## Beach

- Comparable to the well-known “vanilla” colour
- The surface of the water appears in an elegant light turquoise - a beach feeling for your home

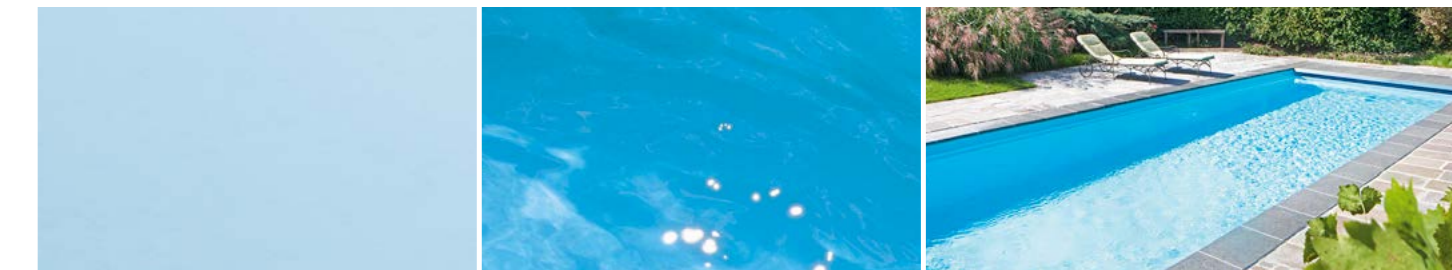

## White

- Soft blue inherent colour
- The water appears bright and fresh - White produces the brightest water colour

## Sea blue

- The water has a strong light blue colour – fresh and radiant
- Especially easy to maintain and timeless

All photos shown here are only examples, and due to printing, offer only an approximation of the actual tone, colour, and appearance. Have your RivieraPool dealer show you original colour samples.  
Note: Granicite stone grey is a manually applied colour mixture that may vary in colour intensity.

# COMPLETE TILING / DECOR TILES MADE OF EZARRI GLASS MOSAIC

The pinnacle of surface quality

Glass mosaic is one of the most durable, high-end surfaces available for swimming pool design. The single mosaic tiles have different tones and thus produce a unique reflection of light and colour to your pool, depending on the angle from which you're looking from and the spectral colour hitting the water surface.

Ezarri is one of the most renowned European manufacturers of swimming pool mosaics - we have been working successfully with Ezarri for many years. The material is of very high quality and enables a wide range of design options.

CHOOSE FROM 5 COLLECTIONS:

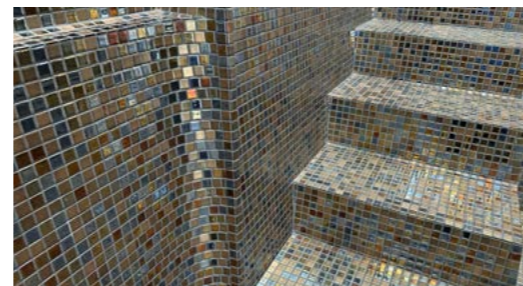

The 'ZEN' series impresses with its natural stone look, while the 'Iridescent', 'Cocktail', 'Space' and 'METAL' series feature reflective, iridescent effects. This

gives your pool a whole new quality. We fit the DECORATIVE TILE in the factory with epoxy material as a tile adhesive and joint filler. The quality and durability have been tried and tested for decades. Frost-resistant and incredibly stable, much more durable than cementitious joints. And ingeniously easy to repair if something happens. This is how sustainable quality works!

All RivieraPool prefabricated pools can be COMPLETELY MOSAIC TILED in the factory on request. A visual and tactile highlight, permanently stable and sustainable thanks to the epoxy material. The pools are supplied with a transport safety device made of bolted beams and covered with a protective tarpaulin for a safe and clean transport.

*A wide colour selection of mosaics as well as examples of the colour effect can be found under:*

# MLine RivieraPool

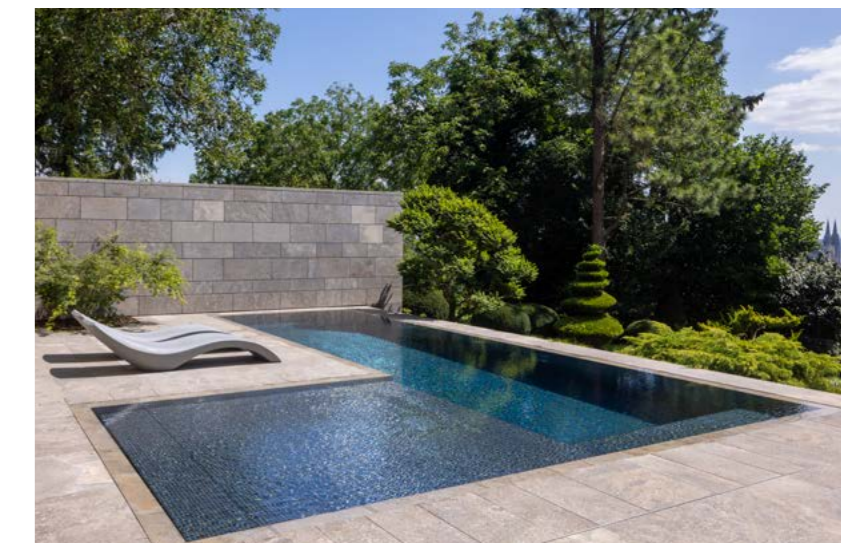

## Prefabricated mosaic pools

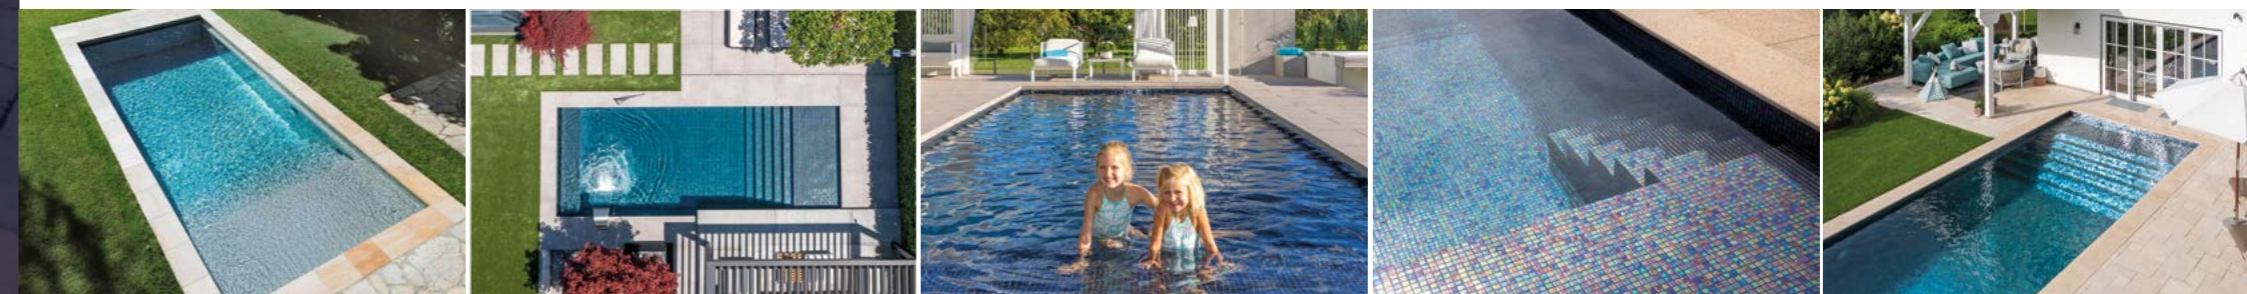

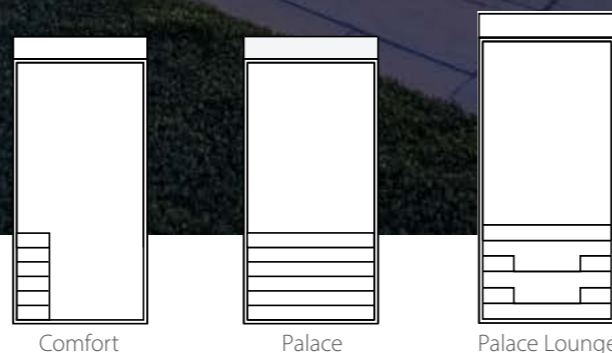

Design, quality, and functionality in perfection, our key performance in our MLine series.

Tailor made, exactly as needed, individually equipped with a wide variety of optional equipment according to your wishes and finally tiled with a mosaic of your choice. The MLine series fulfils all your needs. Whether a 20-meter swimming channel, a classic swimming pool with dimensions according to your specifications or a bespoke whirlpool. Whether skimmer or overflow pool. Modern lighting concepts, acrylic glass panels, high-quality massage and counter-current systems, relaxation and lounging areas... the possibilities

are almost unlimited. We manufacture your dream pool individually and deliver the complete swimming pool in one piece-ready-made, including with mosaic from our factory. Our professional partner companies take care of the installation on site – quickly, smoothly, and perfectly.

MLine with WetLounge (special construction)

# MLine MOSAIC WHIRLPOOLS

New in the RivieraPool programme - Customised MLine whirlpools!

Are you looking for a whirlpool with customised dimensions?

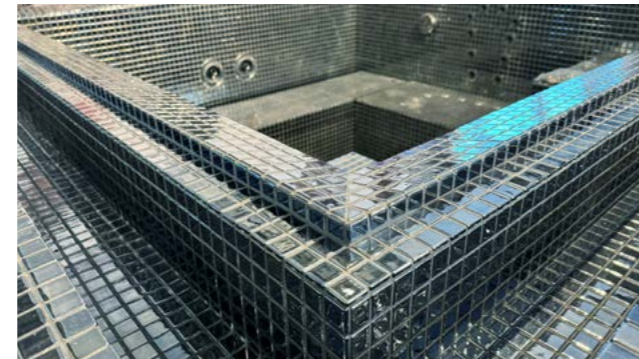

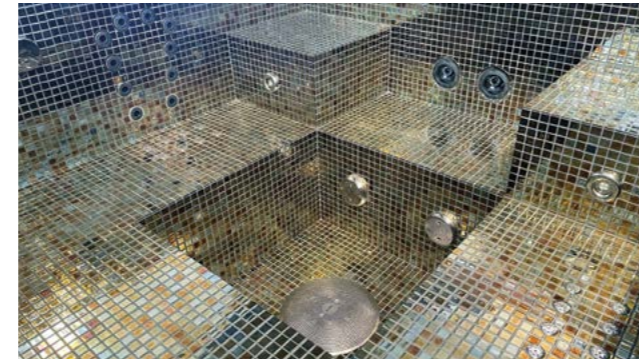

Our new MLine whirlpool system offers you the perfect solution: whether in a skimmer or overflow version, with or without an integrated roller shutter cover.

All MLine whirlpools have one thing in common: well thought-out and complete equipment that leaves nothing to be desired – the choice is yours. We produce your whirlpool tailor-made: give us your desired dimensions on a

sketch, choose your favourite mosaic from the wide range of renowned manufacturers Ezarri or Sicis. We will reply with a drawing and a quotation.

MLine whirlpools: Experience a variety of massage and bubble functions for maximum relaxation. Enjoy the unique aesthetics of the mosaic of your whirlpool every day.

MLine whirlpools: Well thought-out to the smallest detail, perfection in series ex works - and yet so individual.

*The customised solution for your wellness area. Simply use the same mosaic for your shower or steam bath. It couldn't be more individual ...*

*Pool and whirlpool made from the same mosaic material. This is design at its highest level. And everything is securely covered at the touch of a button.*

# Unlimited design possibilities with glass mosaic

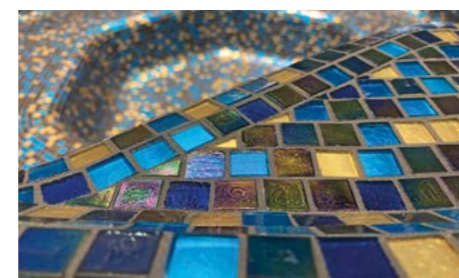

## Craftsmanship in the spa area

The Italian manufacturer SICIS - a major brand for glass mosaics worldwide - never fails to impress with its unique creations made from artistic glass mosaics. Based in Ravenna in northern Italy, SICIS produces all its mosaics from locally supplied raw materials in its own furnaces. Around 1000 colours in a wide variety of shapes are permanently produced.

SICIS stands for mosaic craftsmanship at the highest level worldwide. We have made a pre-selection of colours for you to make it easier for you to choose. You can now choose

from 84 colours from the Murano Smalto, Iridium and Natural collections. In addition, you can choose from 18 colour blends produced exclusively for RivieraPool.

We can of course offer you other colours and collections on request. Sicis makes your design dreams come true...

A wide colour selection of mosaics as well as examples of the colour effect can be found under:

www.**SICIS**.com

84 colours from the following Sicis collections are available:

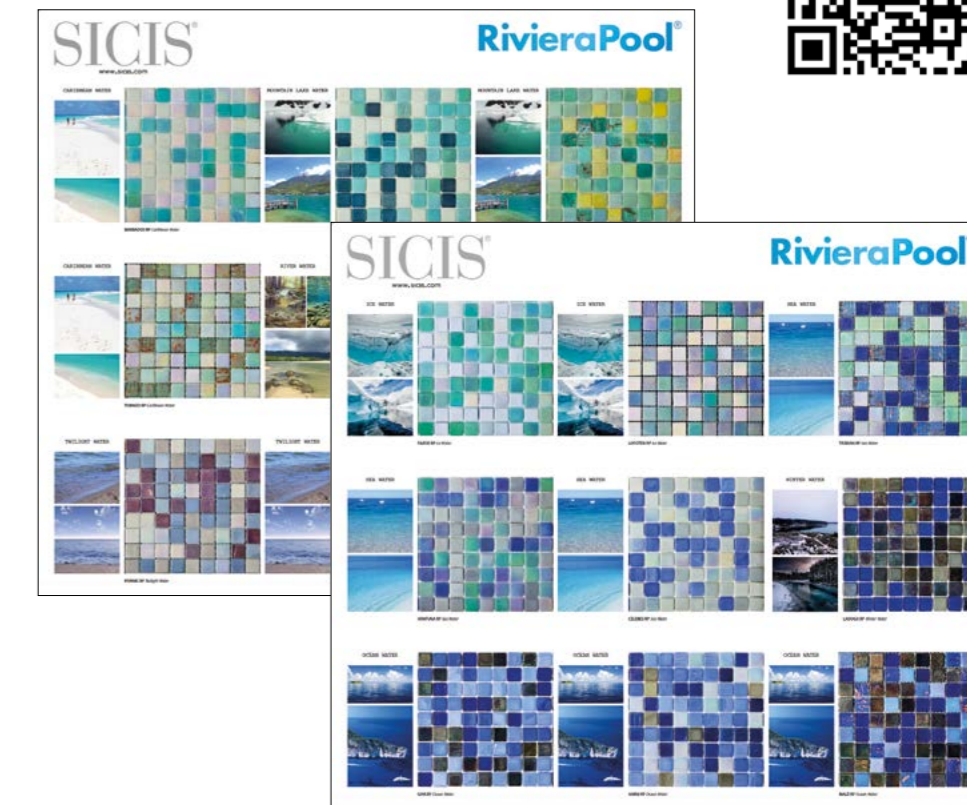

- *Murano Smalto*
- *Iridium*
- *Natural*

# CSIDE POOLS

Neither a swimming pool nor  
a whirlpool... simply a CSIDE pool.

CSIDE pools are neither whirlpools nor swim-  
ming pools, and yet they unite elements of  
both. Like the large prefabricated pools from  
RivieraPool, CSIDE pools are made of epoxy  
acrylate and include optional whirlpool and  
massage functions. Due to their compact  
size, they are particularly designed for ter-  
races, small gardens, or even roof terraces: as  
an AquaLounge for floating and relaxing, as  
a design element that brings the radiance of  
shallow water into gardens or as a water play-  
ground for children.

Minipools – compact and  
creative

CAPACITY	approx. 8.700 Litres
WEIGHT	approx. 500 kg

## COLOURS & SURFACES

### MADE OF EPOXY ACRYLATE TO DELIVER LONG-LASTING RESISTANCE AND DURABILITY

- 1 Duracolor 90 HD – the synthetic, high-density paint carrier layer specifically developed for heavily used pool surfaces.
- 2 Fine cell layer to minimise fibre prints along the high-gloss surface, creating a smoother, easier to care-for pool surface
- 3 Robust carrier layer formulated with high strength fibre mats and chemically durable fibreglass.
- 4 Fortified fine fibreglass layer as its structural base
- 5 Ceramic coupling layer designed to create a homogenous and durable structure. **All layers are embedded in resilient epoxy acrylate.**
- 6 Powerful outer layer designed to contain, compress, and encapsulate all layers. Delivering superior structure stability, each pool is reinforced with steel inserts to ensure ultimate durability.

### GRANICITE STONE GREY

The colour Granicite Stone Grey delivers an impressive look of real, natural stone. When paired with natural stone paving around the pool, the results are stunning. Creating the illusion that the entire pool is built from one single piece of natural stone, the Granicite Stone Grey pool looks bright and fresh in the sun and creates bold, blue water. The natural Granicite Stone Grey colour will retain its vibrancy throughout the years.

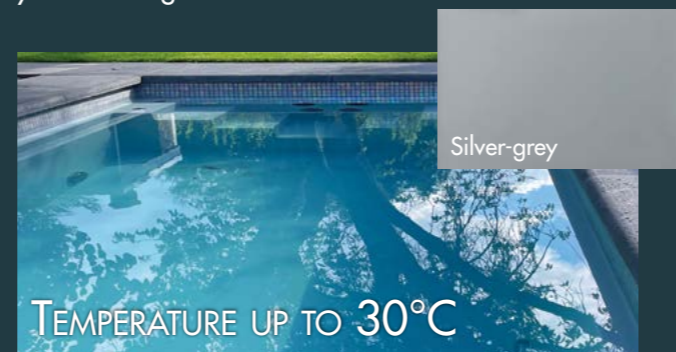

### SILVER-GREY

The pool colour silver-grey makes the water appear vibrant, gives it great depth, and is particularly low-maintenance. The water shines a vivid blue. Silver-grey is modern yet timeless.

### PAPYRUS

A chic, classic, and easy to maintain colour, Papyrus allows the crisp, clean lines and elegant design of your pool shine while the colour effortlessly blends in with the scenery. Transforming the colour of the water into a radiant blue, Papyrus complements almost any natural background or landscaping, and is the ideal companion for your backyard water garden.

Please request the original colour samples!

### GLASS MOSAIC

Mosaic designs are among the most in-demand and highly sought-after design features in pools today. This tremendously durable and endlessly beautiful swimming pool surface helps bring a higher level of sophistication to your backyard oasis. Capable of changing the tone and hue of the water depending on which angle you view it from or the lighting surrounding the pool, glass mosaic tile is available in a wide variety of colours, tones, and textures to deliver a unique and brilliant sense of style to your backyard oasis of wellbeing and serenity.

# PORTABLE SPAS

# The new generation

ANTHRACITE LITE  
**STRATO 2.1**  
216 x 216 x 92 cm

STRATO 2.1  
WHITE ELEGANCE

The Strato 2.1 and the new Strato 2.4 whirlpool with 5 seats – portable whirlpools with the maximum of contemporary design.

The elegant, modern, and linear design promotes this pool series to a highlight of your bathroom. The convenient central entry steps, the smart jet equipment and the sophisticated massage areas ensure pure wellness.

These pools are sensational wherever you place them, whether indoor or in the garden, as they use high-quality aluminium panels and have a patented hardtop cover. We use an extremely

high-quality white sanitary acrylic so that the water appears fresh and blue. The pool cladding is available in three colours and two different options: from the highly elegant matt white to anthracite to warm beige. You choose between the sporty “Lite version” with white corner elements or you choose the “Elegance version” – for an elegant and chic design.

STRATO 2.4  
ELEGANCE

**STRATO 2.4** 236 x 236 x 92 cm

*We reserve the right to make any changes and improvements during production according to our technological processes or further developments without prior notice.*

 can be found here:

The individual combination of glass design and whirlpool

The new and exclusive "Vetrite" glass collection from the renowned Italian glass mosaic manufacturer Sicis meets the modern Strato from Riviera Pool - an update in a class of its own.

The innovative "Vetrite" glass design material gives the spa a unique aesthetic.

As an illuminated art object, you can impressively showcase the Strato "Vetrite" 365 days a year... and also use it as a modern whirlpool. In a combination of traditional and modern production processes, glass is processed with a special formula of poly-

mers and metals. The result is unique panelling for indoor and outdoor use. In addition to around 50 designs - based on gemstones and volcanic rock presented in eye-catching chromatic effects - customised designs are available on request.

Pure individuality!

## INGROUND SPAS - SQUARED DESIGN

**WAVE HIGHLINE** with overflow channel  
254 x 254 x 77 cm

The WAVE HIGHLINE is a square whirlpool model with or without an overflow channel. Our whirlpool models STRATO 2.0 and the larger STRATO 2.3 also stand for an exceptionally modern and straightforward design.

Massage seats with different features and sufficient places for relaxing air bubble massages bring oxygen into the blood. Powerful, punctual or extensive back jets stimulate the circulation and strengthen the muscles.

Elegant, comfortable neck cushions let you forget the stress and give your floating body support. Pure wellness... Indoors or outdoors in top form.

Design at a very high level.

## RIVIERA PUBLIC SPAS

Our commercial inground spas and are perfectly designed to be integrated with your specific project.

These models are particularly designed for commercial situations. Manufactured according to DIN and "Made in Germany", they fulfil all European standards, perfect for an installation in hotels, fitness centres, and on cruise ships.

The high water level of these whirlpools makes them an excellent choice

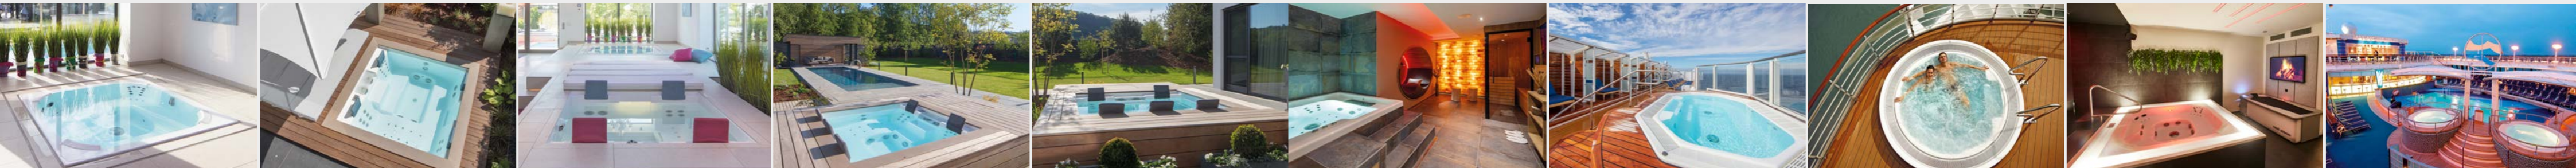

in private and public wellness areas. The pools offer a large range of water massage systems and air massage systems.

*For more than 20 years, the Meyer Shipyard in Papenburg has trusted the quality of RivieraPool. Many cruise ships are equipped with our whirlpools.*

**WAVE HIGHLINE**      **STRATO 2.0** 194 x 194 x 80 cm

**STRATO 2.3** 226 x 226 x 85 cm

# ICE CUBE – THE ICE CUBE DESIGN PLUNGE POOL

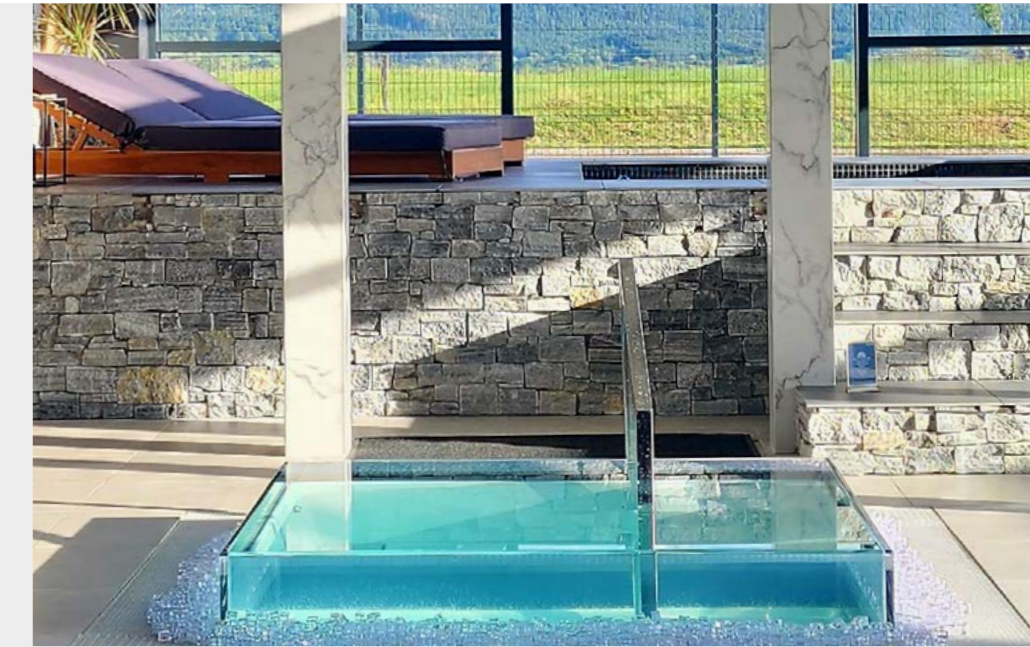

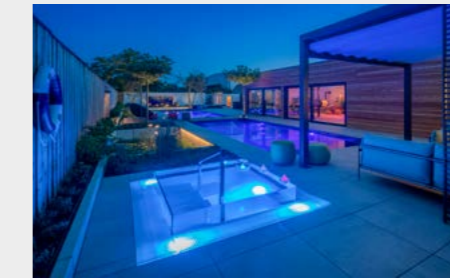

## Contemporary, puristic design

The "IceCube" is a special kind of eye-catcher. With the help of an acrylic overflow edge, the pool looks like an ice cube. Blue LED lighting, in conjunction with sparkling air, creates a unique piece of art in the wellness area.

The overflow channel with the transparent overflow gutter is illuminated. Squared and reduced design - the new cold plunge pool perfectly matches contemporary sauna landscapes. Five steps lead into the water,

and the stainless steel handrail takes the sauna guest safely into the water. The underwater lighting ensures a beautiful ambience and also ensures safety at every step.

*Straightforward and puristic: Cold Dip "IceCube", the new plunge pool, matches perfectly into modern sauna landscapes.*

# INDIVIDUAL CONSTRUCTIONS

Individuality in perfection - Fully customised constructions

You love something special and have your own ideas about what your dream whirlpool or swimming pool should look like. Let's talk about it! We are able to make your dreams come true thanks to our individual mould construction possibilities.

On these pages, we show you some examples of projects that we were able to produce as part of our individual constructions. A whirlpool with natural stone cladding for 20 people – no

problem, already existing for years in Berlin in an established wellness studio. A 25 metre long swimming channel... or would you prefer 50 metres - we can do it. Three-sided acrylic glass - we'd love to.

Customised radii and shapes - feasible. Customised equipment and functions - we're ready. You too?

We look forward to your dreams...

*Beautiful reference: a RivieraPool Roman whirlpool with overflow channel. Individually tiled with Ezarri mosaic - it invites you to enjoy a sundowner by the sea... A feast for the eyes, of a quality you would hardly expect. It's all possible. Challenge us.*
